

“ A vibrant Battersea riverside location set just across the river from Chelsea, the development is arguably a landmark, dominating the stretch of river between Albert and Battersea Bridges. ”

Matthew Smith, Knight Frank

With some of the best views in London, this incredible three-bedroom penthouse offers everything a river watcher could desire.

Full height windows and a lavish roof terrace and balcony overlook Albert Bridge and also the westward stretch of the Thames. The only question is whether the river at night, with lights reflecting off the water, offers better views than the daytime panorama. There are two reception rooms and three bathrooms, as well as the three bedrooms, in a total of 345.9 square meters of living space. The penthouse is in excellent condition and offers the ultimate in stylish living.

Albion Riverside was built on the site of Battersea bus garage and now that formerly unromantic spot is one of the riverside's most sought-after and prestigious places to live.

It was designed by renowned and award-winning architects Foster and Partners who created a dramatic and contemporary building.

On-site facilities include 24-hour concierge and security, gym, swimming pool and underground parking with two spaces allocated to the penthouse. Clapham Junction mainline station and Sloane Square underground station are within walking distance.

Albion Riverside, Hester Road, Battersea Park, SW11, £8,000,000, Knight Frank 020 3811 2226
